DOCTORS DOING ALL POSSIBLE IN EPIDEMIC

Editor Standard: Your paper of Monday evening contained an article regarding the death of a man at the Emergency hospital, with the charge that he had been neglected and refused treatment by a physician of Ogden and died because of that neglect. I have been unable to locate the source of the article, so I take this means of calling your attention to it.

If there is any truth in the charge made in the article, will you not please publish all the details with the name of the physician implicated, so that he may have an opportunity of clearing himself. If there is no truth in it, it surely is an injustice to accuse all the physicians in town of gross inhumanity.

The man mentioned had been offered medical attention several days before his death, and not only refused it but was abusive in his refusal. He was seen by at least two doctors before he went to the hospital and went only after he could no longer protest against going. I am unable to find that he was entitled to treatment because he paid dues into a hospital fund, but even if he did that should make no difference. Contract patients have been treated by doctors during the present epidemic exactly as private patients, but, because of the excessive demand for help, all have been required, at times to wait hours before the doctor could get around to them, but each has been visited in his turn. I have sometimes refused, because of lack of time, to make a visit to a private patient, who was in a great hurry, but I have not yet refused a contract patient and I think all other Ogden doctors have followed the same plan.

There is no reason for any person, during the present epidemic, being without medical care. Any doctor in town is willing to give all that he has to allay the suffering and relieve the distress, and we have been at the call of the city and county and all charitable organizations to help in every possible way. If the writer of that article would follow the average doctor about town for twenty-four hours at present, he would find him busy every minute, going to every nook and corner in town, without a question as to pay for his work, and, usually getting home far after midnight. We realize our limitations in this epidemic better than any one else does, but we are doing the best possible under the conditions and we resent the implications of the article in question. (Signed) JAS. R. MOORILL.

INFLUENZA CAUSES GREAT GLOOM IN TORONTO

Mrs. W. B. Unsworth writing to her brother Angus Kennedy of this city from Toronto, Canada, under date of October 20 says: "Today, Sunday, is a dark, miserable, wet day; no morning services in church, no Sunday schools, so it is a gloomy city, hundreds dying of pneumonia through Spanish influenza. We do not go down town nor anywhere, not meet people, it is dangerous. Eaton's store has 2100 people down with it and it is very bad at camp and many deaths occurring there. Hope you are escaping this dreadful fever."

NURSES ARE WANTED TONIGHT BY THE OFFICIALS

In an interview with the Rev. John Edward Carver of the local chapter of the Red Cross society, Mr. Carver said that it would be impossible adequately to tell the story of the wonderful work that has been accomplished in coming to the aid of many homes stricken by the plague of Spanish influenza by the school teachers of the city of Ogden. Late last night, said Mr. Carver, he had occasion to get the help of two teachers, who willingly went out to take care of a family where seven of the members lie sick of this malady. Willingly and in good spirit the teachers went forth, and they indicated what has been a widespread spirit of able service in which they have been heartily encouraged by Superintendent H. C. Johnson.

There are at present known to the Red Cross six homes where nurses will be needed tonight. It is not necessary that the helpers should be trained nurses, but that they should know how to take care of the patients and administer the medicine needed. Any persons desirous to help should telephone the local office of the Red Cross up to 5 p. m., and after that hour telephone the home of Rev. J. E. Carver, No. 789, and a car will be sent to convey the helpers to the homes of the sick.

REGISTRANTS ARE CALLED BEFORE DOCTOR

Twenty-four registrants of the Weber county draft district were called for examination today. Dr. George W. Baker, county examining physician, reported the following results on those examined this morning:

General service—John C. Hart, Ross Sherman Daly, Alma D. Hill, Wm. D. Skeen, Zino I. Thinnos, Leo M. Stewart, William A. Green.

Deferred to M. A. B.—Leon J. Oetion, Howard Hadley, Halvor E. Bachman, John L. Ward, Thomas A. Storey.

WANTED LIQUOR TO CURE INFLUENZA

The telephone incident at the board of health was not the climax to the day's humor of that department yesterday. Shortly after the Standard went to press, a strong and vigorous man, looking as though he possessed all the power in the world to carry his desires into perfect execution, entered the department with steady step and determined mien and confessed that a friend of his "was sure going to come down with influenza pretty soon" and wanted a quart of whiskey to offset the dread onslaught.

Mr. Stevens, recognizing the desire of one friend to help another, intimated good measures of treatment that did not depend upon whiskey and lectured briefly on the modern history of "dry" in relation to states.

The husky, vigorous and determined man went sorrowfully away. This is a hard state for friends with whiskey appetites.

MRS. ANN ZIEMER DIES AFTER LINGERING ILLNESS

Mrs. Anna Ziemer, aged seventy-eight years and a resident of Ogden since 1874, passed away this morning at 11:45 o'clock at the family home, 209 Twenty-second street. General debility was the cause of her death. Two children, Mrs. Allie Baker and Charles Ziemer, survive. Mrs. Ziemer was born in Lyden, Holland in 1840. Funeral announcement later. The family requests that no flowers be sent. Mr. Ziemer passed away in 1897.

Mr. Nerden was a blacksmith in the Southern Pacific shops and well known in this city.

FRANTZEN—Clarence Baker Frantzen died at 11:20 a. m. Monday at his home 367 Twenty-seventh street. Death was due to influenza.

MCCARTY—Evelyn, the 3-year-old daughter of Mr. and Mrs. Samuel McCarty, passed away in Salt Lake City yesterday of Spanish influenza. The body will be brought to Ogden for funeral services and interment. The

PARTY TICKETS BEING BROKEN DOWN BY RESIGNATIONS

From the difficulties arising in political circles this year as to getting candidates for the various offices, it might be safe to opine that if the war kept up for a few years more the grand and noble, although sometimes quite often in fact, misguided and misrepresented institution, known as American politics, would be relegated to a position of obscurity second only to the famous turtle serum. In other words, the local parties are having almost a struggle to hold a formidable array of candidates together long enough to attack the voter on November 5.

The resignation of Dr. E. M. Conroy, Democratic nominee for state representative, was today formally tendered the party.

Joseph E. Evans, Republican nominee for the office of county attorney, was forced to resign the nomination because of the receipt of orders from the war department, with his commission in the judge advocate's department.

Fear is being expressed by the Democrats lest Attorney C. A. Boyd, nominee for the same position on the Democratic ticket, resign because of his many other duties.

The nomination for county attorney, Republican ticket, may now go to John A. Sneddon, E. T. Hulaniski or Jas. N. Kimball.

NEW GUNS TAKEN BY THE BRITISH

Victory Is More Important Than Even Captures Would Indicate.

BRITISH HEADQUARTERS IN FRANCE AND BELGIUM, Oct. 24.—(Reuters)—British troops today drove the Germans from the Bois L'Evèque, east of Le Cateau and reached the Sambre-Oise canal in that region.

The advance brings the British considerably east of the north and south parallel through Valenciennes. North of the town the British also are well to the east of the parallel, having occupied the sharp elbow in the Scheldt canal, east of Raismes forest.

In the fighting Wednesday, the British captured a number of brand new 4.2 howitzers and at Valenciennes caught the commander of a German regiment.

The victory of the Third and Fourth armies yesterday was one that goes in importance very far beyond what is expressed by the big haul of prisoners and guns.

TWO THOUSAND UNBURIED DEAD

Grave Diggers Cannot Meet Demands Made on Them in New York.

NEW YORK, Oct. 24.—An appeal was made to the mayor today by Queensborough for city workers to be sent as grave diggers to inter the bodies of 2,000 persons, mostly victims of the epidemic, which remain unburied in cemeteries. The borough president stated that sixty per cent of the cemeteries in the greater city were in Queens and that in some cases relatives and neighbors of those who had died have dug the graves.

Great Number Cases. DES MOINES, IA., Oct. 24.—Dr. Sumner recommended all public meetings be called off in communities where influenza exists "in a great number of cases," and advise the people to be exceedingly careful for the next few weeks.

Improving in Maryland. BALTIMORE, Oct. 24.—The encouraging reports of the last several days on the influenza situation here and throughout the state culminating in a still better one today, resulted in orders by the city health authorities removing some of the restrictions adopted to aid in checking the spread of the disease.

The Hunter's Moon

INFLUENZA IN OGDEN IS NOW ON THE DECLINE

There is increasing evidence that the Spanish influenza epidemic in the city of Ogden is on the wane. Although full reports were not received at the city board of health at the time of going to press, the reports received from many of the busiest physicians in the city indicate that the trouble is decidedly on the decrease.

One doctor who has reported as many as twenty-five cases a day, this morning reports only nine. Others who have reported as many as twelve cases per day, report four today.

"This is no reason why there should be any cessation of preventive measures," said Mr. Shorten. "Rather there should be increasing diligence to notice the beginning of coughs and colds and attend to them without delay."

In order that the board of health may be able to report a daily decrease, it is hoped that the entire populace will unite in further watchfulness and greater care, say authorities. It is a widely spread opinion, corroborated by many doctors, that the labor of attending to cases of the disease has been made lighter by the insistent use of old fashioned methods of sweating patients and keeping them warmly covered until medical help arrives. The mustard and hot water foot bath, the drinking of hot lemonade and an early retirement after that treatment to a well covered bed has saved many hundreds of cases from becoming serious.

During the last twenty-four hours three deaths have been reported to the city board of health, Johana Kruitbosch Ternes, James Nerden and Clarence Baker Frantzen.

SUIT FOR \$500 IS FOR RENT DUE

Suit for \$500 and \$75 attorney's fees, the former sum alleged to be due as rent on the Saville Hotel for the months of July, August, and September and October, 1918, was filed today by the Ogden Trust & Development company against Mrs. L. Saville. The complaint alleges that the hotel property was leased to the defendant by the Development company and that the defendant has failed to pay rent during the months stated. An affidavit of attachment of the property accompanies the complaint.

Federalization? It Is To Laugh!

Plans announced for the federalization of Austria (not Austria-Hungary) by Premier Wassarek are shown by the map. There are to be four states: (1) German-Austrian; (2) Czechoslovak; (3) Ruthenian; (4) Illyrian. Disposition of Austrian Poland in the north, Bukovina in the east, and Bosnia-Herzegovina in the south is to be left for future arrangement. Hungary, junior partner in the dual monarchy, is not affected by the federalization, although it contains more Jugoslavs than Illyria, nearly as many Slovaks as there are Czechoslovaks in Austria, and about as many Ruthenians as those in eastern Galicia who are affected by the Hussarek decree.
